S&O Construction Services Inc. has hired J&J Sheet Metal Works LLC for quite a few complex and challenging projects over the past 6 years. J&J workers have all been very professional and have been very cooperative. The office staff has supported the field personnel whenever the need has occurred. We have also used their CAD Drawings on many of the Projects.

I have listed below some of the Projects that we have worked together:

Yonkers Public Schools
North Yonkers Pump Station (Large Stainless Steel Ductwork Project)
NYS Capitol Building in Albany
Nathan Kline Rehab Center in Rockland County
Newburgh Water Treatment Plant PVC Ductwork as well as Stainless
NYS Police Troop F Headquarters in Middletown
Otisville Prison

We would recommend J&J Sheet Metal Works for any Project Large or Small, Public or Private.

Robert Grossman
Senior HVAC Estimator and Project Manager
